If walls could talk

Wallcoverings can add so much richness, warmth, and personality to a space. We're highlighting a few of our favorite projects featuring House of Hackney, Area Environments, Phillip Jeffries, Mind the Gap, Studio Printworks, and Robert Kime.

New in NoMad

We were over the moon to receive this lovely note from a client upon completion of their NoMad residence, “As I entered the apartment, the dramatic entrance hall took my breath away! The custom credenza and the beautiful mirror told me there's much more ahead. I felt like Alice in Wonderland...”

Pictured above is a custom credenza by Gardner Murray, lacquered walls by EduDeco, sconces from Allied Maker, a mirror from RH, and artwork by Alex Katz.

Debut at Salon Art + Design

Aamir debuted his calligraphies at Cristina Grajales Gallery's booth during The Salon Art + Design show. The works are based on his daily practice of combining traditional calligraphy techniques with a modernist sensibility. His works were displayed alongside pieces by Christina Z. Antonio, Christophe Côme, Hechizoo, Timothy Horn, Mark Grattan, Ann McCoy, and Gloria Cortina. Curated by Young Huh.
